Based on her own life while a child, Shizuye Takashima recalls the degrading experience that she, her family and all the other Japanese-Canadians living in Vancouver had to go through during World War II. They were uprooted from their homes and relocated in camps west of the province. Stripped of all civil rights, they were forced to submit to three years of indignity on a scale that makes the episode one of the most disgraceful in the country's history. The book is illustrated by the author's water color paintings.

Tru TITLE: A VERY SMALL REBELLION.
PUBLISHER: J. M. Le Bel Entreprises Limited
Edmonton, Alberta
1977

A Very small rebellion is a valuable book in that it is written from a Metis point of view. Along with the historical essay written by Jack Chambers, the book features a fictional story that portrays modern Metis children coping with the problems they face when the building of a road threatens their settlement. Through an understanding of their history, as presented to them by an ingenious drama teacher, the children come to see that they too must accept responsibility for what happens to them. They tried to make a rebellion on their own in an attempt to halt an insensitive bureaucracy.

A teachers'guide is available and includes a play based on A Very small rebellion.
